

LEISURE POOLS

SWIMMING IN QUALITY AND STYLE

Overview

Leisure Pools is the largest worldwide manufacturer of fibreglass composite swimming pools.

Manufacturing

Leisure Pools operates the two most modern, state of the art, composite fibreglass pool manufacturing facilities in the world. Our U.S plant located in Texas, supplies North and South America. Our Australian plant located in Queensland supplies Europe, the Middle East and Asia/Pacific.

Transportation

Leisure Pools has developed its range of swimming pools to allow for economical transportation anywhere in the world. By being able to transport multiple swimming pool sizes and designs at the same time, we are able to significantly reduce transport costs per swimming pool.

Dealers

Leisure Pools currently has over 400 Dealers representing its product worldwide.

Research

Leisure Pools operates its own laboratory where continual research is conducted to ensure our manufacturing technology is to the highest standard possible. We combine our own testing procedures with independent testing to guarantee our ability to manufacture the best composite swimming pool.

Development

Leisure Pools has introduced more new designs of composite fibreglass swimming pools into the marketplace than any other manufacturer. We are consistently aware of changing trends and have in place a program to develop cutting edge designs that meet the demands of consumers worldwide.

Raw Materials

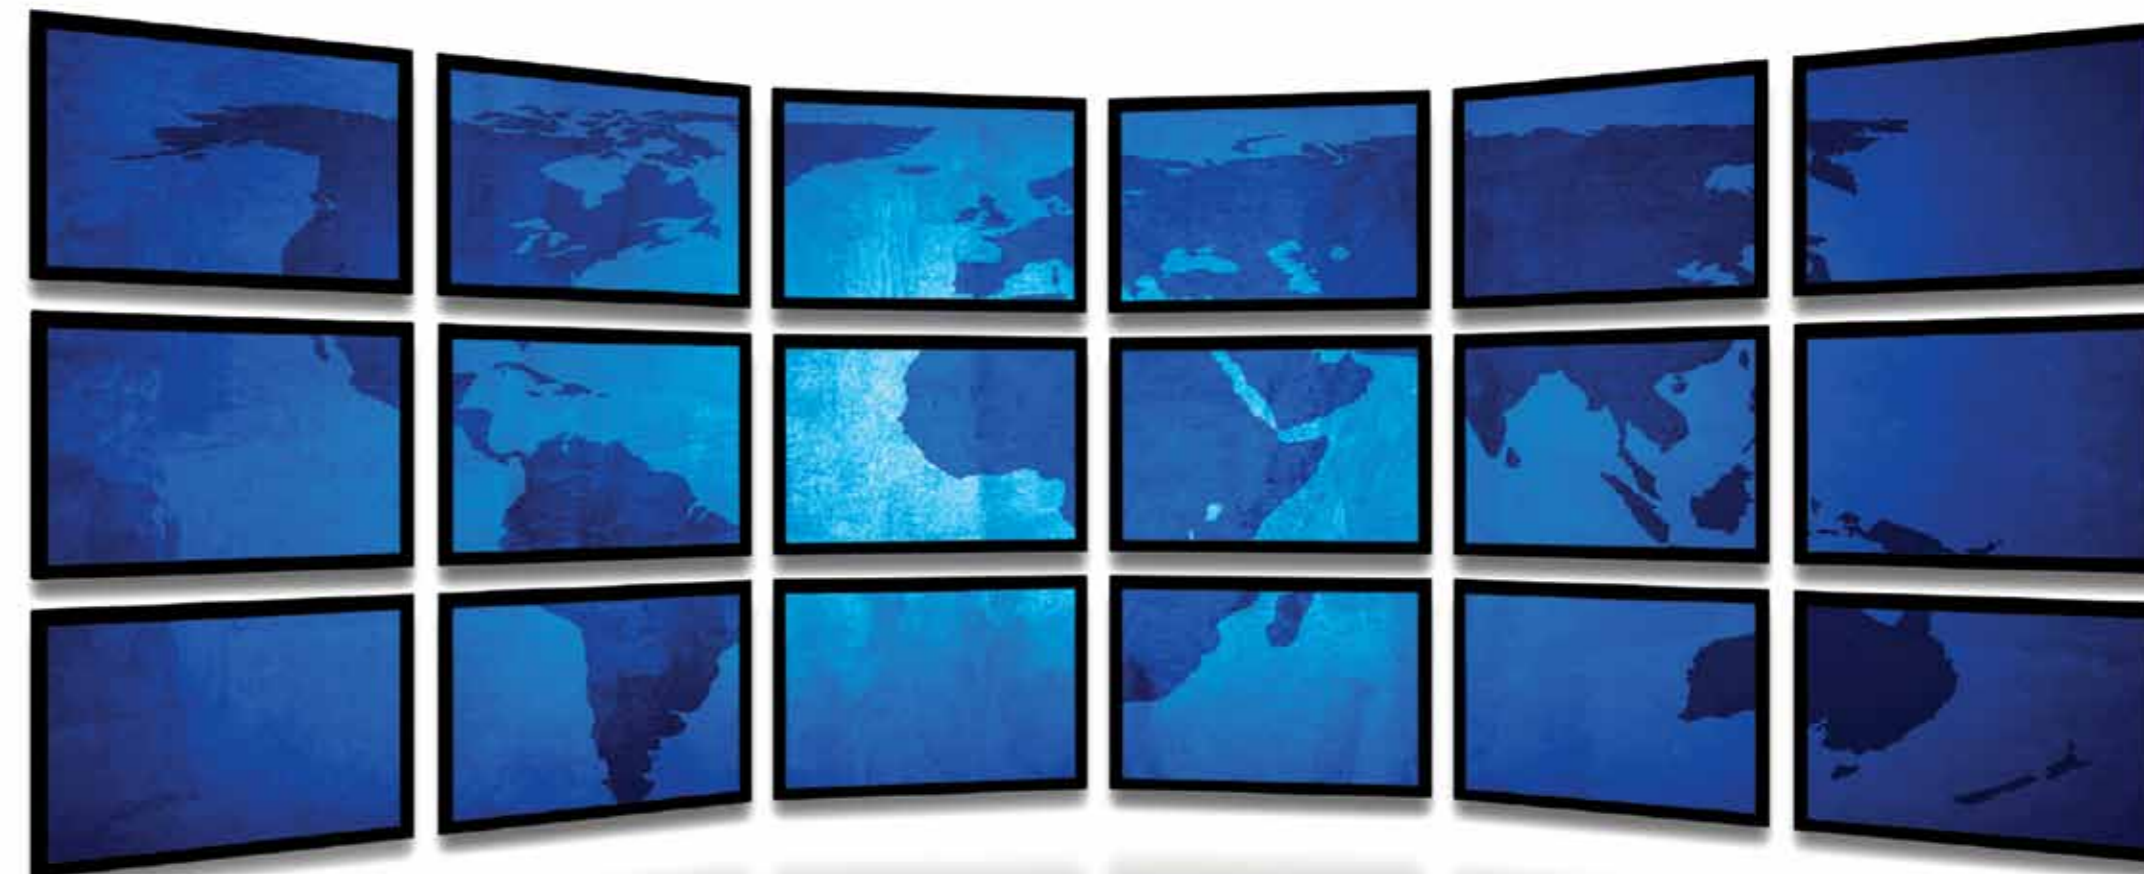

Leisure Pools manufactures its swimming pools with high grade gelcoats, vinyl ester resins, woven rovings and gun rovings sourced from around the world. Our raw materials are rigorously tested for quality and performance to produce the best manufactured swimming pool on the market.

Colour Range

Leisure Pools uses sophisticated gelcoats that enables the manufacture of coloured finished swimming pools that have excellent U.V stabilisation characteristics. Some manufacturers only produce their pools in either white or pale blue. Leisure Pools colour range contains 11 different colours.

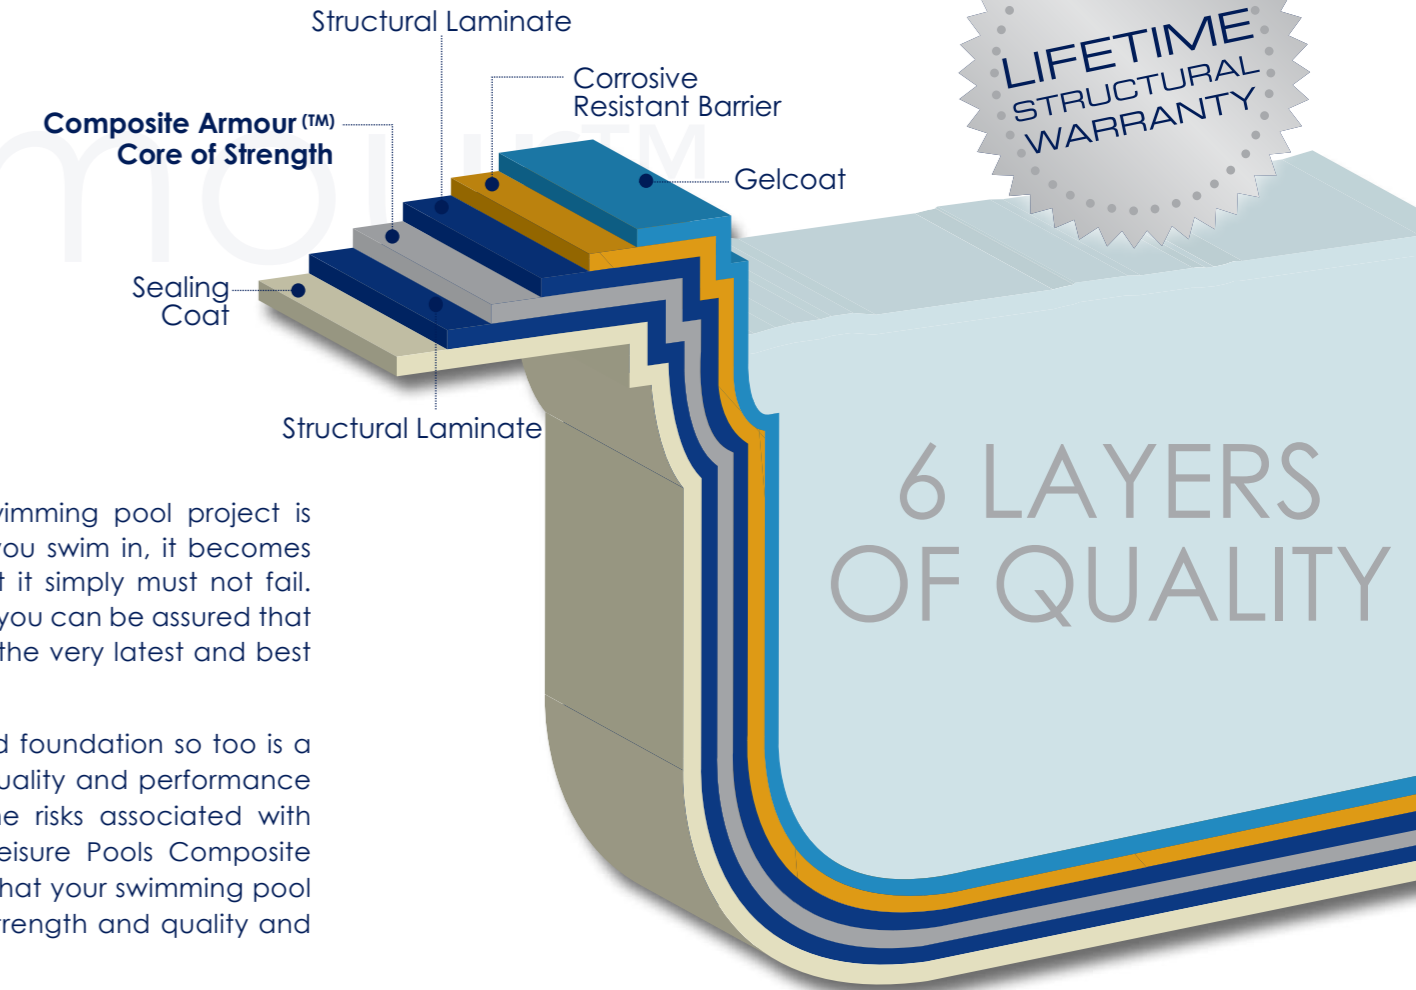

Warranty

Leisure Pools offers a Lifetime Structural Warranty on its fibreglass composite pools.

“ a truly global swimming pool company ”

Leisure Pools Composite Armour™ = Lifetime Warranty

Leisure Pools has never been satisfied with just building a good swimming pool. Our aim has always been to build the best composite pool in the world. The companies continued investment in research and development has resulted in the perfecting of our latest accomplishment in technology – Composite Armour™ – our core of strength.

This is totally new technology in composite swimming pool manufacture. This patented new technology is designed to significantly reinforce the composite swimming pool with a strategically integrated laminate that consists of a blend of Dupont™ Kevlar®, Carbon Fibre and Bassalt Fibre. We call it our core of strength.

High performance fibres have been used in many cutting edge applications. Dupont™ Kevlar® is used in bullet proof vests, body armour, military vehicles, wind turbines and aerospace applications. Carbon Fibre and Bassalt Fibre is used in aerospace and high performance automotive applications. When combined through Leisure Pools Patented new technology, Composite Armour™ brings a new level of performance to the production of composite swimming pools.

By using Composite Armour™ in the pool shell laminate, we have been able to achieve tremendous improvement in flexural and tensile strength compared with normally constructed fibreglass pools. This has enabled Leisure Pools to provide a Lifetime Structural Warranty on all of its composite swimming pools.

The most important single component in any swimming pool project is the actual pool shell itself. It contains the water you swim in, it becomes the centre piece of all your landscaping, in short it simply must not fail. Now with Leisure Pools Lifetime Structural Warranty you can be assured that your composite swimming pool shell is made with the very latest and best technology in the world.

Remember, just as a good house is built on a solid foundation so too is a good swimming pool installation, built upon the quality and performance of the pool shell. It goes without saying that the risks associated with using an inferior pool shell are just too great. Leisure Pools Composite Armour™ will give you peace of mind in knowing that your swimming pool project will start with a pool shell of outstanding strength and quality and a Lifetime Warranty.

The Reflection

The Reflection is Leisure Pools latest and most modern design that could be called 'simply perfect'.

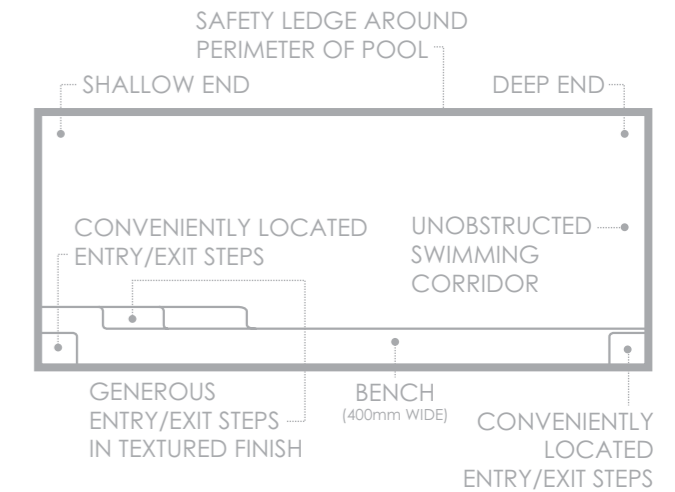

With land shapes and sizes constantly evolving The Reflection offers not only versatility in terms of placement on your block but it also provides a simplistic structure to suit every home and still have the practicality that you want from a swimming pool.

This stylish rectangular swimming pool has entry steps perfectly positioned at both ends of the pool with a full length bench seat to suit a variety of purposes, without compromising space for swimming.

The simple and elegant design features very square corners that epitomise modern design and lend themselves to suit a variety of landscaping options to reflect your own style.

By having the full length bench and steps on one side of the pool the design allows the deepest part of the pool to be well away from any house foundations. This can often allow the pool to be situated closer to the home which is a great benefit where space for a pool is limited.

The latest in the Leisure Pools range offers structural functionality, swim sensibility and timeless design to suit your design needs now and in the future.

LENGTH	WIDTH	SHALLOW END DEPTH	DEEP END DEPTH
9.00m	3.79m	1.28m	1.78m
8.00m	3.79m	1.28m	1.72m
7.00m	3.79m	1.28m	1.66m

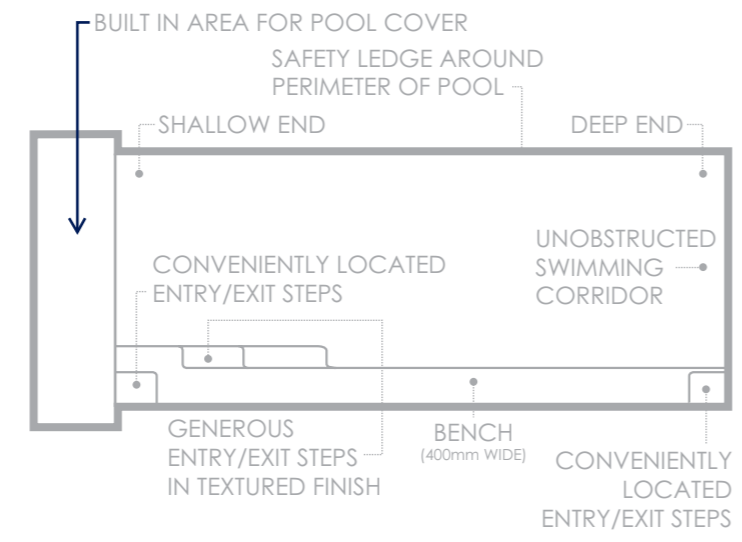

The Reflection with Auto Cover

Leisure Pools have taken the new Reflection into the next generation by adding a built-in housing for an automated pool cover.

The benefits of having a retractable cover will not only improve your heating options but will keep your pool free from leaves and debris, whilst having the ability to be automatically retracted out of site.

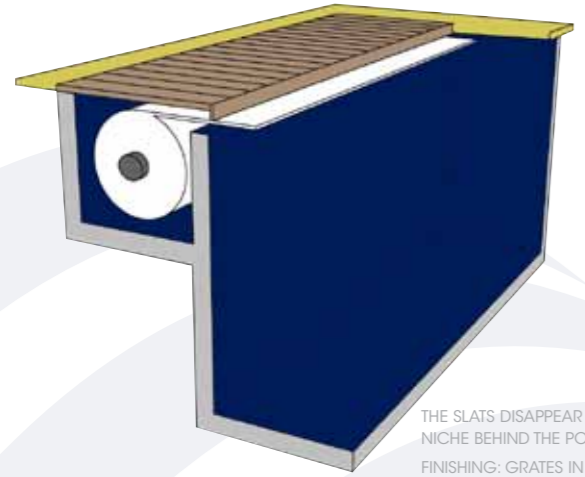

Perfect for a variety of climates and surrounds, this design not only offers a tidy environment to store the cover, but also creates efficient use of space by having it built into the pool.

With The Reflection with Auto Cover you really can have the best of both worlds! A functional, stylish and elegantly designed swimming pool with the option to cover your pool in an efficient and easy way.

LENGTH	WIDTH	SHALLOW END DEPTH	DEEP END DEPTH
9.92m	4.06m	1.28m	1.78m
8.92m	4.06m	1.28m	1.72m

The Elegance

Since its introduction the Leisure Pools 'Elegance' design has changed peoples' perception of what a fibreglass pool can look like.

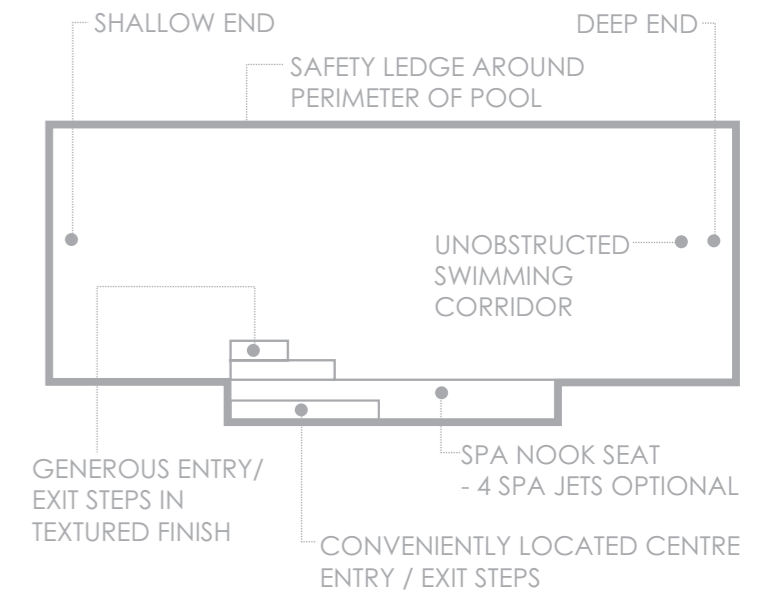

This bold and innovative design with its ultra modern square corners and clean crisp lines has rapidly become one of the most popular pool designs in the world.

When Leisure Pools first commenced design work on The Elegance, the emphasis was to not only create a new and visually stunning looking pool, but also one that maximised the space inside the pool where you swim.

The Elegance has a large unobstructed centre swimming corridor which is perfect for swimming laps. The central step location also incorporates a generous seating area where optional spa jets can be installed to create a relaxing spa nook.

The pool has generous depths at both deep and shallow ends and comes in sizes of 10 metres, 9,8 ,7 and 6 metre lengths to suit almost any size location.

The Elegance is truly a giant leap forward in modern pool design and may be just the pool for you!

LENGTH	WIDTH	SHALLOW END DEPTH	DEEP END DEPTH
10.00m	4.40m	1.23m	1.82m
9.00m	4.40m	1.26m	1.77m
8.00m	4.40m	1.29m	1.76m
7.00m	3.90m	1.32m	1.73m
6.00m	3.50m	1.365m	1.705m

The Moroccan

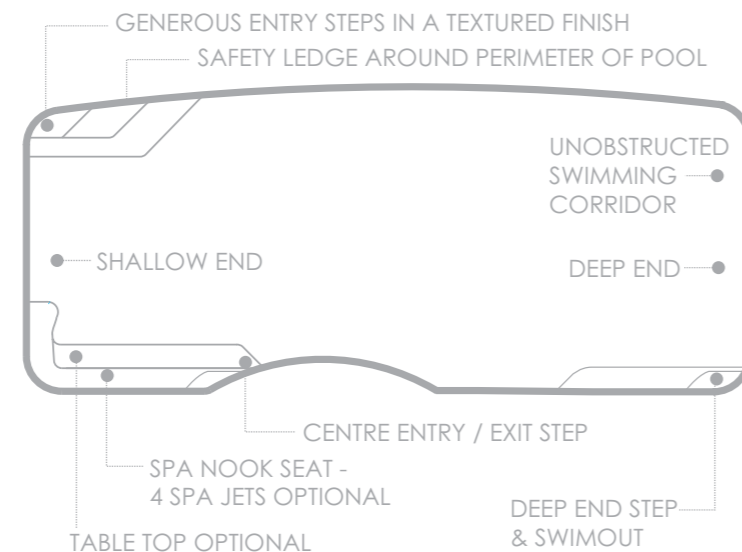

Leisure Pools Moroccan range is the result of years of research and taking many of the best features a pool can have and putting them all into one stunning package. This is a swimming pool with more features than any other pool in today's market.

The Moroccan is generous in size and stylish in looks and will give your family the lifestyle you have always desired. Through clever design all steps, benches and seating have been kept clear of the centre corridor to provide unobstructed end to end swimming.

Instead of just one entry point The Moroccan has three; one at the shallow end, one on the opposite side at the deep end and a third in the centre of the pool. This allows for versatility in placement of your pool in relation to your house or outside entertainment area with a convenient entry/exit point always nearby.

The Moroccan has excellent seating areas in the pool with a swim out bench and step at the deep end and a more generous corner seating area at the shallow end. Optional spa jets and seat aeration can be installed and there's even an option for an in-pool table making this is a great area to sit back and relax.

The Moroccan is a spacious pool with room for the whole family and comes in a large range of sizes including; 11.7m, 10.4m, 9.4m, 8.2m and 7.3metres in length. Whether playing games, swimming laps or just relaxing and cooling off, The Moroccan will suit all your needs.

LENGTH	WIDTH	SHALLOW END DEPTH	DEEP END DEPTH
11.70m	4.40m	1.12m	1.88m
10.40m	4.40m	1.12m	1.80m
9.40m	4.40m	1.12m	1.74m
8.20m	4.10m	1.09m	1.59m
7.30m	3.80m	1.12m	1.55m

The Opulence

Leisure Pools' Opulence truly is a pool that deserves its name. On one hand you have an elegant and stylish pool in its own right and on the other you have the bonus of a luxurious spa. The total package looks superb!

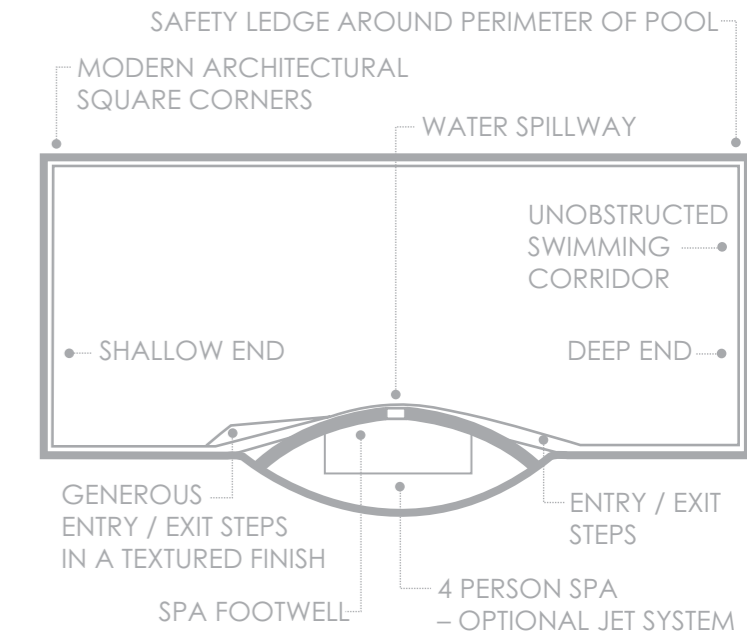

The addition of the spa section does not in any way inhibit your ability to use the pool to swim laps. In fact, this pool is ideal for end to end swimming. Swim a few laps, play a few games and then relax in the massaging comfort of the spa. The whole family will love this pool.

As an optional feature you can have heating in the spa section of the pool which would greatly increase your enjoyment of the pool year round.

The spa section has a unique spill-over edge. As the spa fills it overflows into the pool creating a waterfall effect. The pool and spa entry steps are conveniently placed on either side of the centre of the pool.

The pool has generous depths at both deep and shallow ends and comes in 3 sizes of 10 metre, 9 metre and 8 metre lengths.

So, yes you can have it all! Enjoy the soothing and revitalizing effect of a spa encapsulated in a functional and beautiful pool, it is truly Opulent!

LENGTH	WIDTH	SHALLOW END DEPTH	DEEP END DEPTH
10.00m	4.40m	1.23m	1.82m
9.00m	4.40m	1.26m	1.77m
8.00m	4.40m	1.29m	1.76m

The Harmony

In harmony with your home, in harmony with your landscape, in harmony with your lifestyle, Leisure Pools new Harmony range of swimming pools seem to fit perfectly into any situation.

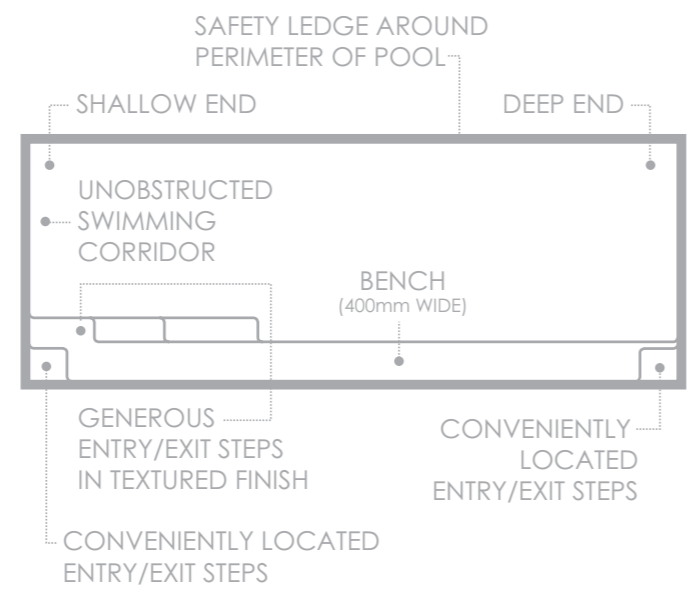

Leisure Pools have identified a demand from our customers for modern clean lined architecture in swimming pool design. As a result, Leisure Pools have developed the Harmony range of swimming pools.

The Harmony is a rectangle pool with square corners producing a modern and elegant design. There is a bench running the length of the pool with entry and exit points in the shallow and deep ends.

The Harmony is also a deep pool that ensures even the tallest people get a decent swim. The Harmony is 2.90m in width enabling it to fit into home blocks where the width or depth of the block is limited.

By having the full length bench and steps on one side of the pool the design allows the deepest part of the pool to be well away from any house foundations. This can often allow the pool to be situated closer to the home which is a great benefit where space for a pool is limited.

The pool our customers asked us for, the Harmony may be just the pool for you.

LENGTH	WIDTH	SHALLOW END DEPTH	DEEP END DEPTH
8.00m	2.90m	1.29m	1.76m
7.00m	2.90m	1.29m	1.695m
6.00m	2.90m	1.29m	1.63m
5.00m	2.90m	1.29m	1.565m

The Platinum Plunge

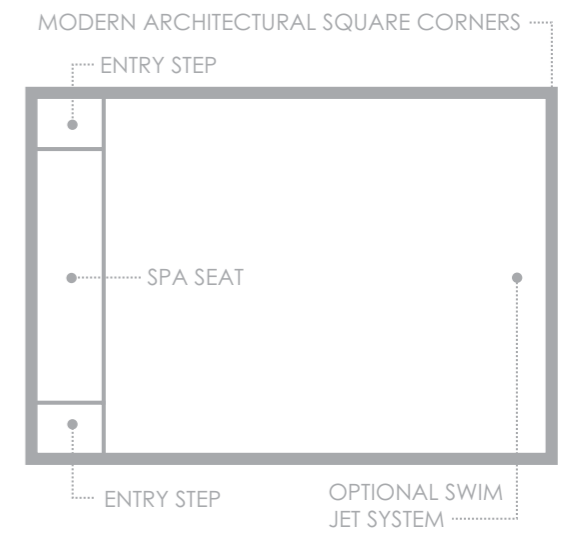

The allocation of space for a swimming pool is always an important consideration. Many people these days are caught in the trend towards smaller and smaller building blocks where available space is precious. Others who do have space may consider that they do not wish to use it all for a swimming pool. In either case, why not look at Leisure Pools range of Platinum Plunge Pools? These pools are very modern, very stylish and take up a minimum of space.

The character and atmosphere of your home can be enhanced when looking out onto a water scene. Water can look tranquil and calm or just as easily full of life and movement. You can choose which environment you wish with your Platinum Plunge Pool.

These pools have convenient entry steps on either side with a bench seat between the steps that can have spa jets and seat aeration fitted. The Plunge Pools are surprisingly deep at 1.6m with a water level around 1.5m The pool floor is flat which makes activities like water exercise much more enjoyable.

A swim jet system can be installed in the pool if swimming exercise is what you're after. The smaller water volumes make for easier heating which make the pool suitable for use all year round.

Any way you look at it; for just cooling off on a hot day, for some healthy exercise, or to create the ambience of a water environment around your home, The Platinum Plunge pool can do it all for you.

LENGTH	WIDTH	SHALLOW END DEPTH	DEEP END DEPTH
4.98m	3.48m	1.60m	1.60m
4.46m	3.48m	1.60m	1.60m
3.50m	3.48m	1.60m	1.60m

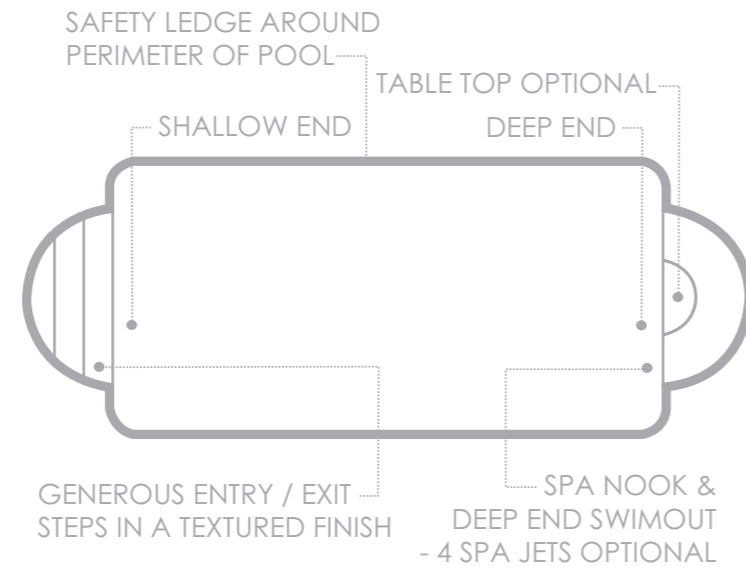

The Roman

Why does one particular design endure for centuries whilst others are soon forgotten? The timeless elegance of the classic Roman style swimming pool is as much in vogue today as it was in the days of Ancient Rome.

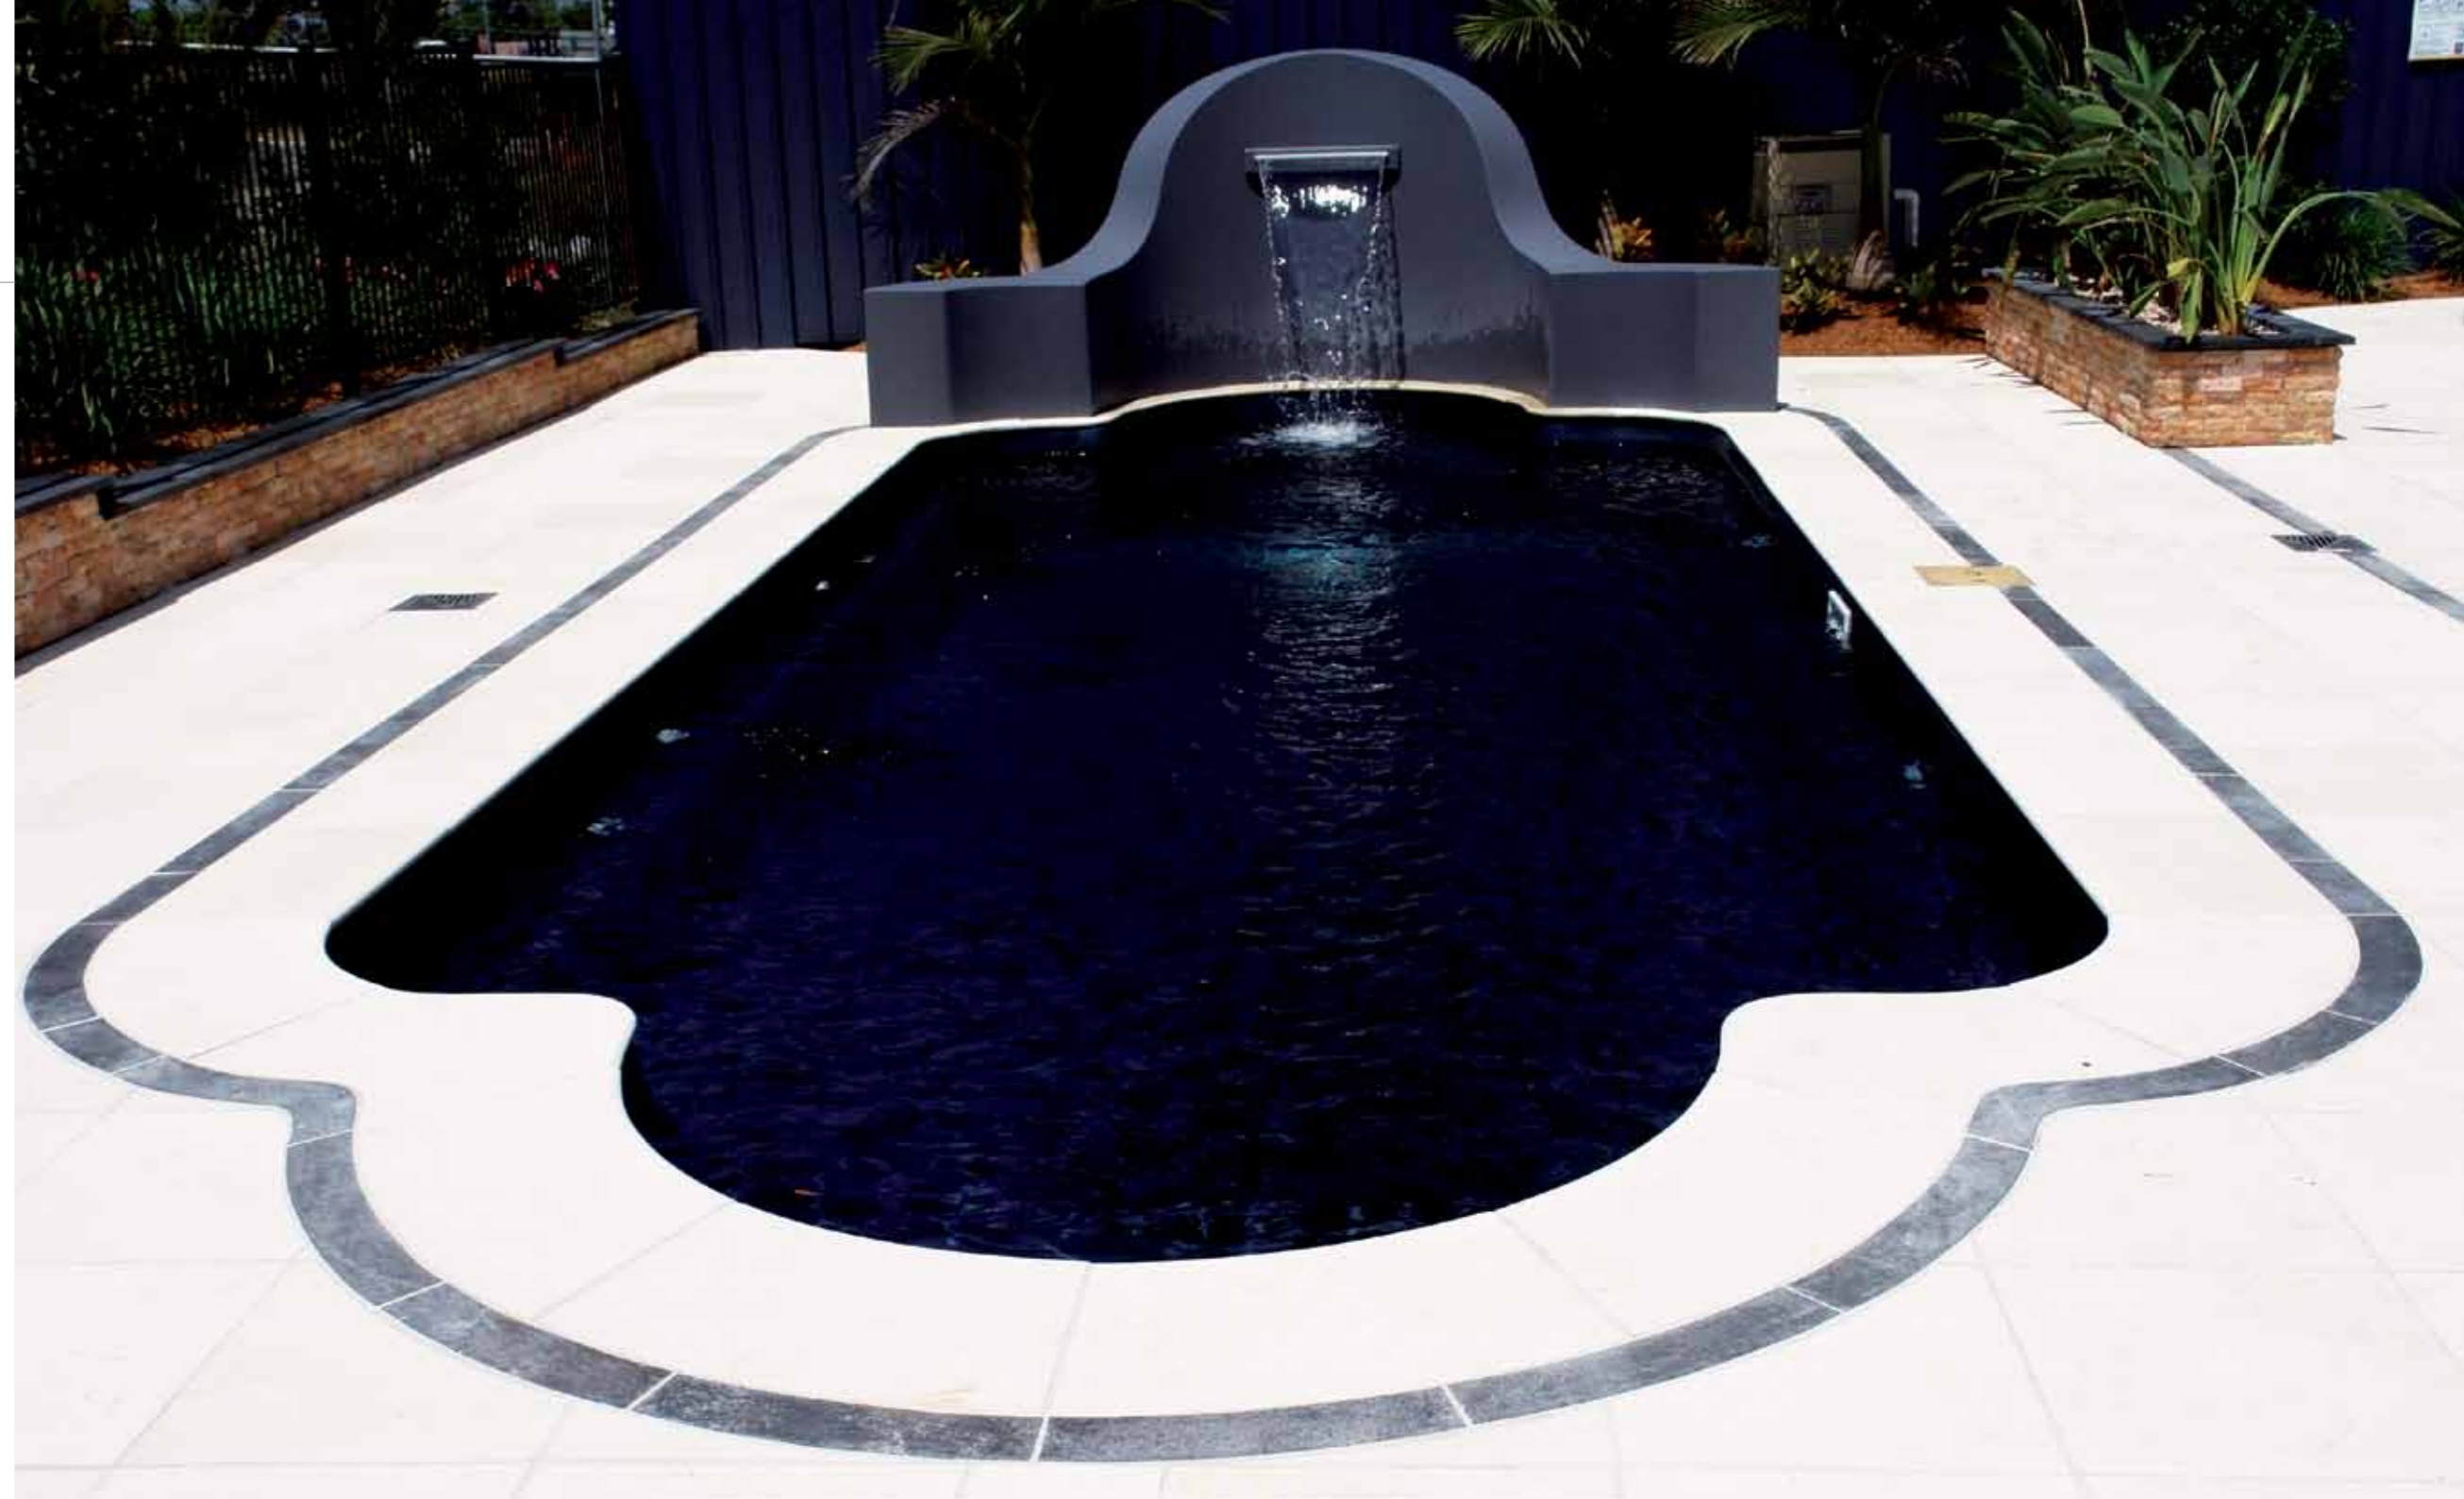

The Leisure Pools Roman design is simple, practical and pleasing to the eye. The clever use of the rectangle and two semi-circles also unlocks unlimited possibilities for exciting landscaping concepts.

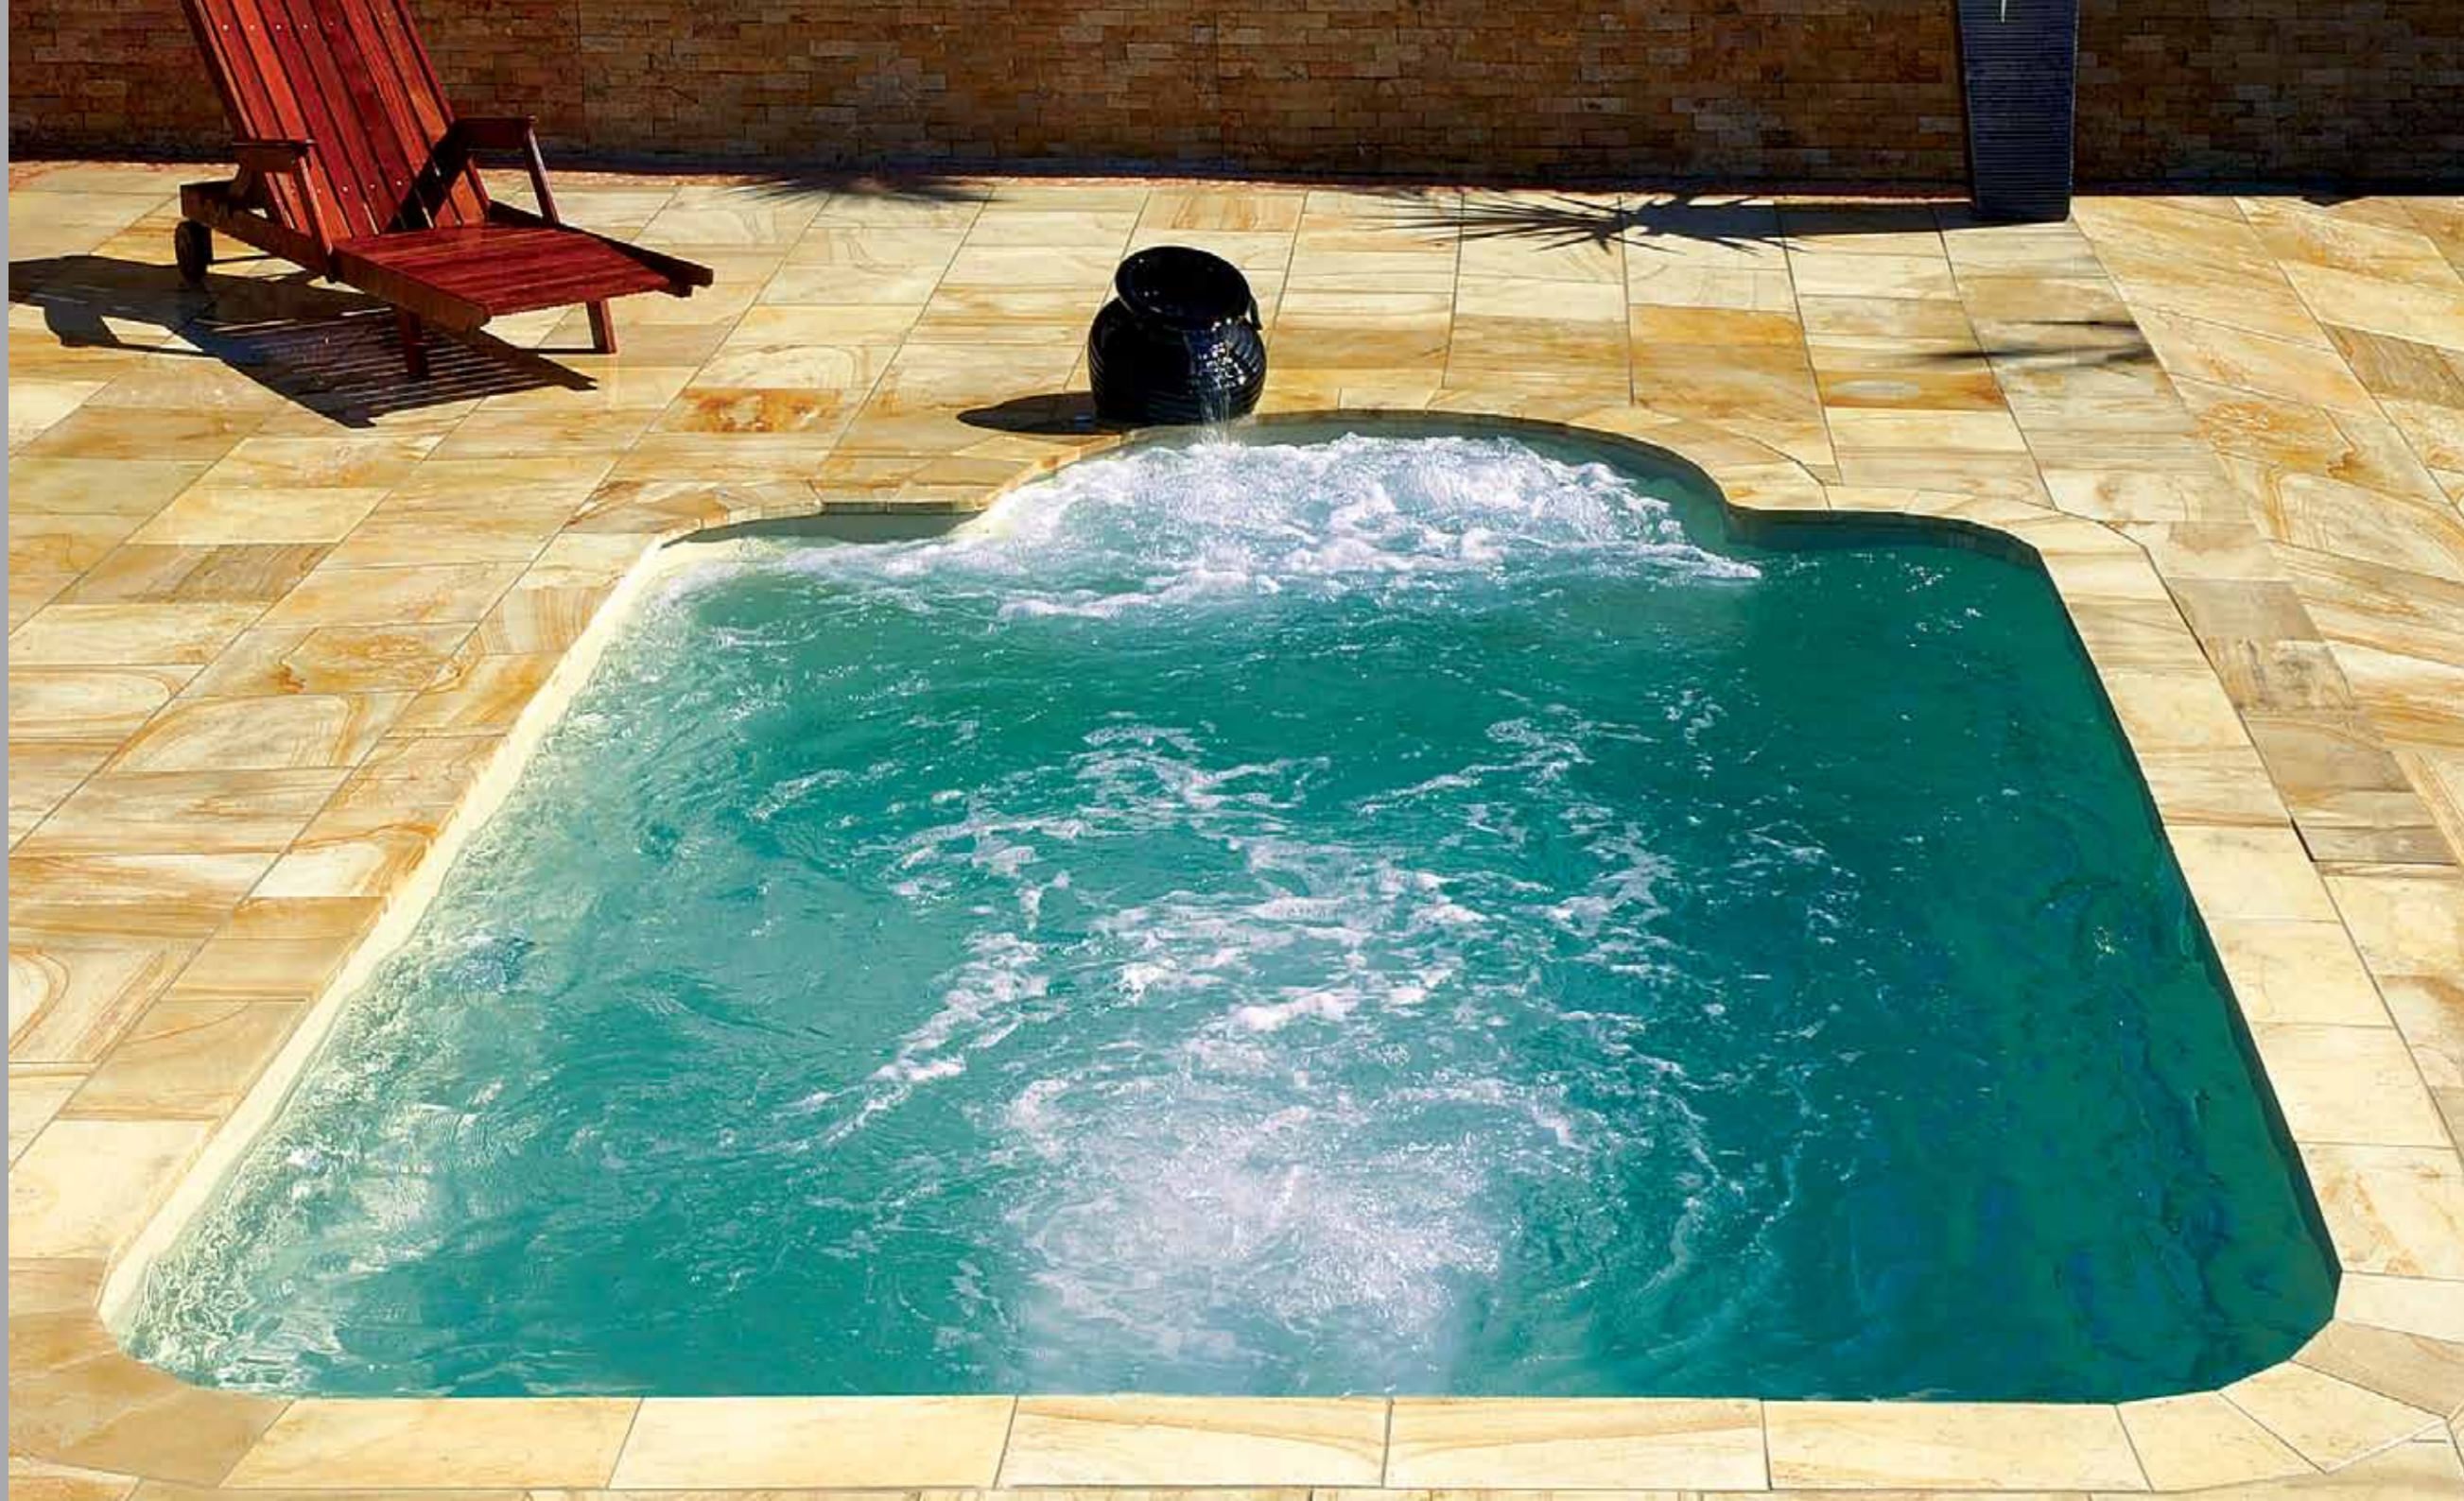

The Leisure Pools Roman features broad entry steps at the shallow end and a seating area at the deep end. The seating area at the deep end can also be fitted with optional spa jets and pool table.

Leisure Pools has maintained a pool width of 3.5metres through all the sizes in the Roman Range. Primarily this has been done to enable the pool to fit into the many situations where pool width is critical. This has been done without compromising the very balanced look that makes this pool so appealing.

LENGTH	WIDTH	SHALLOW END DEPTH	DEEP END DEPTH
9.20m	3.50m	1.21m	1.63m
8.00m	3.50m	1.22m	1.56m
7.00m	3.50m	1.26m	1.54m

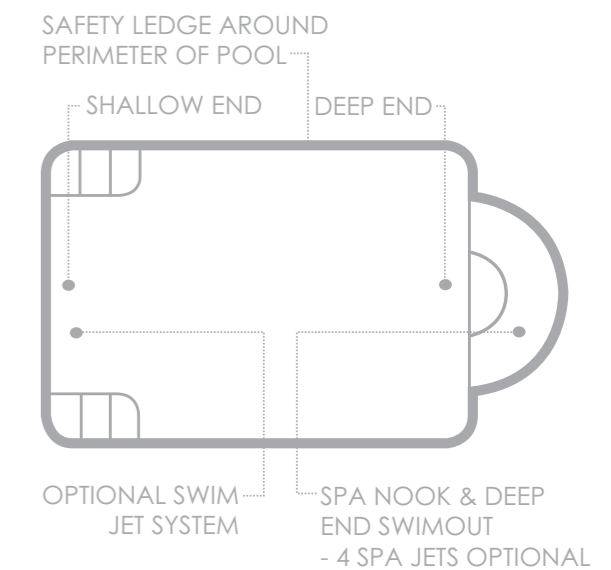

The Courtyard Roman

As its name implies The Courtyard Roman is the ideal centrepiece for that stunning courtyard setting. These days' swimming pools are not just being seen as something great to swim in but also something great to look at. With the Leisure Pools Courtyard Roman as your starting point just imagine the many interesting courtyard scenes that could be created around it.

Here is a pool that not only looks good but can be packed with features. This pool is ideal for a Swim Jet System with the jets being located between the two sets of steps at the shallow end. Swim Jets will enable you to get a good workout swimming against the water rushing past you.

At the other end in the curved seating area you can install Spa Jets and even Seat Aeration to create that massaging hydrotherapy effect you get in a spa and a table can be fitted into the curved seating area to complete the picture. The main body of the pool is great for playing games or simply relaxing and cooling off on hot summer days.

The Courtyard Roman is also suitable for relatively simple heating to enable this entertainment centre to be used all year round. So whether you use this pool as an entertainment area, an exercise centre, a relaxation area or a great looking courtyard centrepiece, this versatile pool ticks all the boxes.

LENGTH	WIDTH	SHALLOW END DEPTH	DEEP END DEPTH
6.00m	3.50m	1.26m	1.54m

The Tuscan

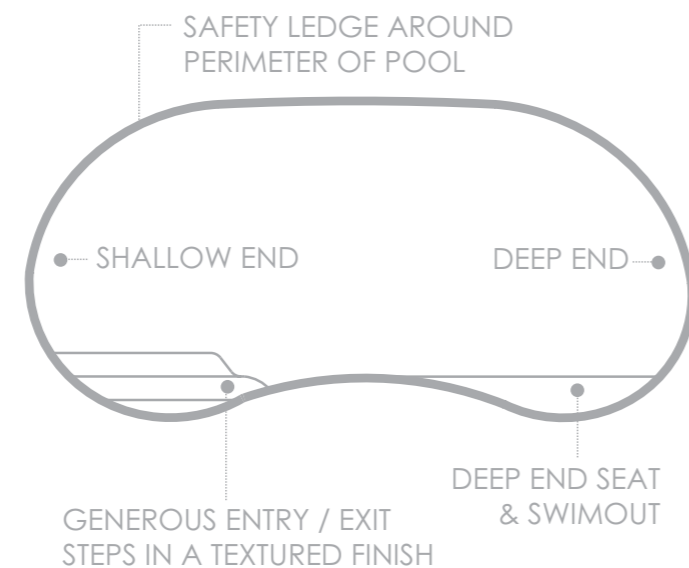

Swimming Pools that feature a freeform design have always been a popular choice amongst pool owners. This type of design seems to epitomise a casual and relaxed feeling that many enjoy in their home.

The Tuscan's freeform shape can adapt to any theme you may wish to create with your swimming pool area. The Tuscan is a delight to landscape around and lends itself readily to combine with rockeries and tropical plants, waterfalls, timber decks and natural stone surrounds. At the same time it will look equally impressive surrounded by paving tiles and neat cropped hedges in a more formal design.

Freeform designs fit perfectly in just about any pool site but are particularly adaptable to difficult corner sites where the freeform shapes afford considerable versatility of placement. The free flowing curves allow you to manoeuvre the pool into places that many other more formal shapes won't fit.

The Tuscan has generous sized steps into the pool at the shallow end and a bench seat swim-out at the deep end. Even though the pool seems quite curved there is a full length unobstructed swimming corridor down the centre of the pool which affords the ability to swim laps.

You can just imagine The Tuscan creating your very own oasis in your home.

LENGTH	WIDTH	SHALLOW END DEPTH	DEEP END DEPTH
8.65m	4.10m	1.20m	1.72m
7.00m	3.50m	1.13m	1.52m

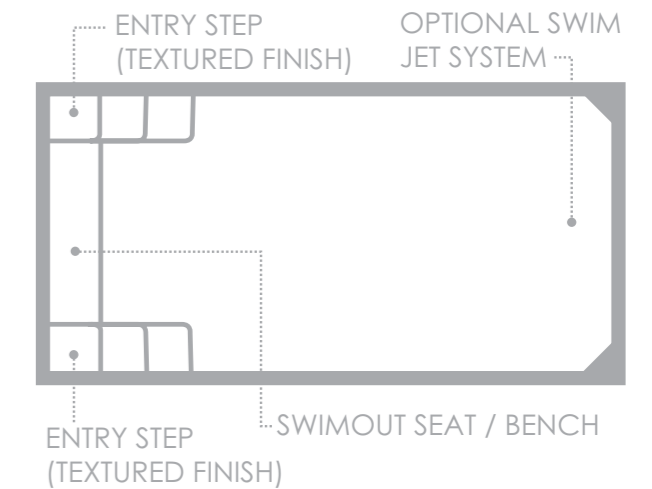

The Olympus

The Olympus could quite possibly be the pool you can have when you thought you didn't have the space for a pool! As part of our popular Plunge Pool range The Olympus at a compact 4.6m in length and 2.2m in width may be the perfect fit for you.

Don't miss out on all the wonderful benefits a swimming pool can bring to your lifestyle. These days Plunge Pools are often preferred to larger pools or smaller spas. A Plunge pool will still allow you to cool off on a hot day in the privacy of your own backyard. At the same time The Olympus can be turned into an exercise centre by the addition of a Swim Jet System. The 4.6m length can seem a very long way when you're swimming against a powerful Swim Jet System!

With the addition of some Spa Jets into the wall above the bench seat situated between the two sets of steps you can even enjoy the massaging and hydrotherapy benefits of a spa. The two sets of steps allow easy access to either side of The Olympus for convenience and the flat floor is excellent for aerobic exercise.

The Olympus is a great centrepiece for that water effect that creates such atmosphere in your backyard or courtyard environment.

LENGTH	WIDTH	SHALLOW END DEPTH	DEEP END DEPTH
4.60m	2.20m	1.20m	1.20m

The Riviera Swim Spa

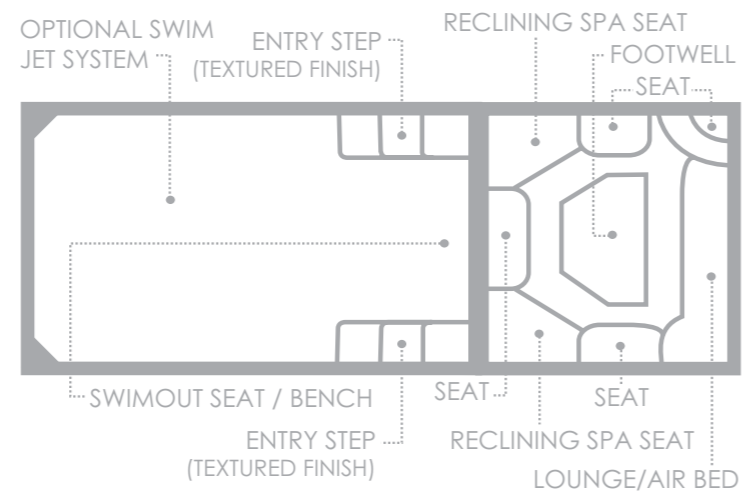

Good things can come in small packages especially when it comes to The Riviera Swim Spa for this truly is a pool that packs more features into its relatively compact size than suggests is possible.

The Riviera is in fact a Twin Zone pool that is divided into a Spa section and a Swim section, separated by a spill over bridge between the two sections.

The Spa section is a full sized spa with ample seating for 6 adults and includes 2 contoured turbo seats that can produce a concentrated massaging effect on your back and shoulders as well as a full sized layback recliner lounge for a full body hydrotherapy effect. There are 3 additional seats that can have back massaging jets along with a conveniently located step that makes for easy entry and exit from the spa. The water jets and air delivery system can be customised to your liking.

The Swim section can be simply used as a 'cool off' pool or can be turned into a vigorous exercise centre with the addition of a Swim Jet System. The Swim Jets can make it seem like you're swimming in an endless ocean. With a set of steps on either side of the swim section your entry and exit from this section is also convenient and easy.

Here is a pool that is ideal for those limited access areas as well as Courtyards, Patios, even Rooftops! With the right options this pool can be made to suit a variety of uses and adapt to the lifestyle you want. The pool is an ideal size for effective heating and both sections can be heated independently of each other.

LENGTH	WIDTH	SHALLOW END DEPTH	DEEP END DEPTH
5.75m	2.20m	1.20m	1.20m

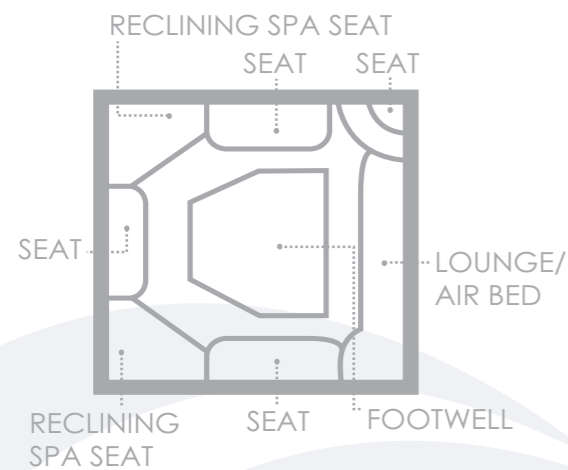

The Riviera Spa

For centuries, people have recognised the rejuvenating healing powers of warm water. Today, Leisure Pools takes an innovative approach to the art of warm water healing or hydrotherapy.

Spend just a few moments in Leisure Pools' Riviera Spa and you're likely to experience less stress, improved circulation, better sleep and fewer symptoms of arthritis and back pain.

The Leisure Pools Riviera Spa has strategically placed jets and ergonomically correct seating to create an ideal place for practicing a variety of calming, comforting and healing routines.

The Riviera Spa is available in all the colours that are available for the pools enabling you to colour match your pool and spa combination.

LENGTH	WIDTH	SHALLOW END DEPTH	DEEP END DEPTH
2.20m	2.20m	.97m	.97m

Leisure Pools Colours & Finishes

In the past fibreglass pools were only available in white or pale blue. Today, because of the introduction of a vibrant new range of pool colours the fibreglass pool has become the pool that everyone wants.

Aside from the design of your pool the colour you choose will really set the tone for your new outdoor room. Fortunately, Leisure Pools has a great range of colours for you to choose from that will not only suit the entire Leisure Pools range, but will further enhance any landscaping, features and surrounds that you work into your pool area.

One of the great things about fibreglass is the flexibility of colours that are available for you to choose from. The Leisure Pools colour range has been tested over time to withstand trends and offer timeless style so it's hard to go wrong! All our finishes provide smooth, non-abrasive surfaces for a shimmering look and softer feel.

AQUAGUARD® Gelcoats

The finish on a Leisure Pool not only looks stunning, it is the result of years of research and development aimed at leading the fibreglass pool industry.

Aquaguard® Gelcoat finishes were originally developed and tested by Fibreglass International (fgi) through the 1980's and 1990's in Australia. Over the years of development, the product called for exceptional chemical resistance, mechanical strength and weathering properties, especially the latter for use in exterior applications in climates where the UV intensity is extremely high.

Today, the new and improved Aquaguard® gelcoats:

- Offer outstanding UV and fade resistance
- Provide unique shimmer and sparkle finish
- Are formulated as a one coat spray system with excellent application characteristics. (Not only are they easy to apply in the factory, they are easy to repair if damaged.)
- Are specifically designed for swimming pool applications

Leisure Pools Range

These colours and finishes are exclusive to Leisure Pools so if it's that little bit something special that you're after, this is the perfect range for you. The unique non-abrasive granite style finish has an inbuilt sparkle and shimmer giving the effect of millions of diamonds scattered all over the pool! In different lights and from different angles you'll pick up subtle tonal changes that will really make your pool come alive and look more enticing to dive right in!
